DETAILED ACTION

1. This action is responsive to the request for reconsideration filed February 20, 2009.
2. Claims 1-4, 6-22, 24 and 25 have been examined, and all remained pending claims now are being allowed (renumbered 1-23).

Examiner's Statement of Reasons for Allowance

3. As Applicants pointed out in the Remarks, the prior art of record (Dardinski and Hammack) do not disclose and/or fairly suggest at least claimed limitations in independent claim 1 *"...wherein said source control system comprises a plurality of source control levels that includes first and second source control levels to control versioning of objects used by said controller to provide said process control; receiving a selection of one of said first and second source control levels; enabling in said source control system said selected source control level; and automatically or manually setting a version number of a first object of said objects, depending on said selected and enabled source control level, wherein said first object is a control strategy loadable to said controller to provide said process control"* and similarly recited in such manners in other independent claims 12 and 18 (Remarks, pp. 10-12).

As Applicants further pointed out in the Remarks, the prior art of record (Dardinski, Crounce and Hammack) do not disclose and/or fairly suggest at least claimed limitations in independent claim 1 and other limitations recited in claims 22, 24 and 25 as follows *"...In particular, independent claim 22 recites, 'wherein version numbers are set automatically in said control levels of full and basic and manually in said control level of none'. Independent claim 24 recites, 'wherein version numbers are set manually and automatically in said source control levels of none and basic, respectively'. Independent claim 25 recites, 'setting a version number for said first object based on a user-enterable number if said full control level is not licensed and if said basic control level is not selected'."* (Remarks, pp. 12-13).

These claimed limitations are not present in the prior art of record and would not have been obvious, thus all pending claims 1-4, 6-22, 24 and 25 are allowed.
